

Suhashraj V

UI/UX CXPD & Product Designer

Coimbatore, Tamil Nadu

suhashrajvkg78@gmail.com • [LinkedIn](#) • [Behance](#) • 6379786686

Summary / Objective

Creative, results-driven UI/UX & Product Designer (1.7 yrs exp) specializing in pixel-perfect design and front-end code conversion. Skilled in AI-driven design workflows, simplifying complex systems into intuitive user flows, and cross-team collaboration for end-to-end design-to-development delivery.

Work Experience

Junior Designer – Lingaasys Technology

Jan 2025 - Present | Coimbatore, Tamil Nadu

- SCM Silks (E-Commerce), TimeChat (Super App), Company Website, Admin Console — covering UI/UX Design and Research.
- Authored PRDs covering Information Architecture, User Stories, and Development Handoff specs; collaborated with stakeholders and Backend teams to define requirements; converted designs to functional code using HTML, CSS, Bootstrap 3 & 5.
- Design-to-Code Conversion, UI Design, UX Research, Competitor Analysis, AI Image Generation, Information Architecture, Responsive Design & Development, HTML/CSS/Bootstrap 3 & 5.

Freelance UI/UX & Product Designer

May 2026 – Present | Remote

- Conducted UX research and designed mobile and web applications for freelance clients, translating user needs into intuitive interface solutions
- Reviewed final development builds to identify UX inconsistencies and bugs, providing design corrections and animation recommendations to improve usability and visual polish
- Reference: Tarun Sk, +91 93635 01944

Projects

SCM Silks E Commerce Website

- Conducted competitor analysis (Pothys, Ajio, Myntra, KALKI) to inform UX research and design direction
- Delivered a complete theme-aligned website prototype spanning 5+ key modules
- Designed key modules: Wishlist, Luxury Points, Gift Card, Referral, and Enquiry sections
- Co-designed gift card visuals, custom icons, imagery, and font selections for brand consistency

Time Chat Super App

- Designed modular UI covering Home, Chats & Calls, To-Do, and Settings
- Delivered full screen flows and interactive prototypes across 4 core modules
- Conducted competitor analysis (Arattai, WeChat, Todoist, Zoho Calendar) to benchmark UX patterns
- Delivered a cohesive, theme-aligned design system and prototype

Approval Desk

- Designed Governance, Approval, and Settings modules using Figma Make with AI-prompt-driven workflows
- Conducted UX research to inform module structure
- Delivered a theme-aligned design system

Lingaasys Website

- Created mood board to define visual direction and brand aesthetic
- Designed Careers/Jobs section, Job Application Form, Project Enquiry, and Connect With Us sections
- Ensured responsive component design across the site

Core Skills

- Design Systems & Tools
Figma, Figma Make, Auto Layout, Components, Design Systems

- **Design & Research**
UI Design, UX Research, Information Architecture, Wireframing, Prototyping, Competitor Analysis, Micro-interactions
- **AI-Assisted Workflows**
AI-Assisted Design & Development, Vibe Coding (Codex & Antigravity), AI Image Generation
- **Front-End & Code Conversion**
Code Conversion (HTML, CSS, Bootstrap, Tailwind CSS), Design-to-Code Handoff

Education

M.Kumarasamy College Of Engineering	2020 - 2024
B.E Electronics and Communication Engineering	
CGPA - 8.2	
SDLC Karur	2024
UI / UX Design Certification	

Additional Information

Intrests
Learning new technologies, upskilling in web and app design and development. In free time, I enjoy redesigning apps by identifying and fixing UX mistakes.
Languages
Tamil, English
